Mounting Structure

MRac Roof Solar PV Mounting System Matrix III is applied to various kinds of flat roof projects. Main components are made of hot-dip galvanized steel, with good performance of structure strength, stability and anti-corrosion, compatible with varied solar modules. Patented structure design guarantee quick installation to save construction cost.

Features

System Compatibility

Components mostly pre-assembled in factory to assure quick and reliable installation on site. Suitable for different flat rooftop, and compatible to different types of solar modules.

- Cost Efficiency

Hot-dip galvanized steel assures the structure strength and lower cost for large-scale installation
